CROSS MATCH TECHNOLOGIES, INC.

1. This International Searching Authority

(i) considers that there are 07 (number of) inventions claimed in the international application covered by the claims indicated ~~XXXX~~on the extra sheet:

and it considers that the international application does not comply with the requirements of unity of invention (Rules 13.1, 13.2 and 13.3) for the reasons indicated ~~XXXX~~on the extra sheet:

Add'l Search Fee (9/30/01)

(ii) has carried out a partial international search (see Annex) will establish the international search report on those parts of the international application which relate to the invention first mentioned in claims Nos.:
1-48, 54

(iii) will establish the international search report on the other parts of the international application only if, and to the extent to which, additional fees are paid

2. The applicant is hereby **invited**, within the time limit indicated above, to pay the amount indicated below:

EUR 945,00 x 06 = EUR 5.670,00
 Fee per additional invention number of additional inventions total amount of additional fees

Or, _____ x _____ = _____

The applicant is informed that, according to Rule 40.2(c), the payment of any additional fee may be made under protest, i.e., a reasoned statement to the effect that the international application complies with the requirement of unity of invention or that the amount of the required additional fee is excessive.

3. Claim(s) Nos. _____ have been found to be unsearchable under Article 17(2)(b) because of defects under Article 17(2)(a) and therefore have not been included with any invention.

INVITATION TO PAY ADDITIONAL FEES

International application No.

PCT/US 01/09187

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. Claims: 1-48,54

A biometric sensing apparatus comprising a piezoelectric ceramic sensor and a processor that receives an input from said sensor

2. Claims: 49-53

A multiplexer for a biometric sensor array comprising a plurality of parallel first conductors, a plurality of parallel second conductors and a plurality of switches

3. Claims: 55-56

An apparatus comprising a switch for coupling a source of power to a device that utilizes a piezoelectric effect to wake up the device when the device is turned off.

4. Claims: 57-58

An apparatus comprising a switch that utilizes a piezoelectric effect to make a selection on an interconnected viewing device.

5. Claim : 59

An apparatus comprising a piezoelectric pointing device wherein a centroid of a finger in contact with said device is used to point on an interconnected viewing device.

6. Claims: 60-61

A system comprising a public service layer for use with a wireless communication stack.

7. Claim : 62

A system comprising a constellation of BLUETOOTH compliant devices having a public service layer.

The above groups of claims have no common feature. The features of the above groups of claims solve different technical problems. Therefore no common inventive concept can be present by way of solution to a common problem. Consequently the application does not comply with the requirement of unity of invention (see rule 13 PCT.)

Annex to Form PCT/ISA/206
COMMUNICATION RELATING TO THE RESULTS
OF THE PARTIAL INTERNATIONAL SEARCH

International Application No
PCT/US 01/09187

1. The present communication is an Annex to the invitation to pay additional fees (Form PCT/ISA/206). It shows the results of the international search established on the parts of the international application which relate to the invention first mentioned in claims Nos.: **1-48, 54**
2. This communication is not the international search report which will be established according to Article 18 and Rule 43.
3. If the applicant does not pay any additional search fees, the information appearing in this communication will be considered as the result of the international search and will be included as such in the international search report.
4. If the applicant pays additional fees, the international search report will contain both the information appearing in this communication and the results of the international search on other parts of the international application for which such fees will have been paid.

° Special categories of cited documents :

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier document but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
